

CLARIFICATION STORMWATER MANAGEMENT FACILITIES

In Appendix 1, under Wastewater Management Projects it reads:

Schedule A

- 11) Establish new or replace or expand existing stormwater detention/retention ponds or tanks and appurtenances including outfall to receiving water body provided all such facilities are in either an existing utility corridor or an existing road allowance.

It is important to note that the definition section includes:

Utility Corridor

Means land or rights to land utilized for locating utilities, including sewage, stormwater management and/or water services and/or appurtenances thereto, railways, street-cars, light rapid rail systems and transit ways.

In this document, "existing utility corridor: means a developed utility corridor.

Utility Corridors are not always linear and this means that expansion of a stormwater management facility is a Schedule A activity provided no additional property is required.

The following two points

Schedule B

- 2) Establish a new stormwater retention/detention ponds and appurtenances or infiltration systems including outfall to receiving water body.
- 3) Enlarge stormwater retention/detention ponds/tanks or sanitary or combined sewage detention tanks by addition or replacement, at substantially the same location.

apply if property is required for the facilities.
